Awaken Your Life.

Step into a universe where **identity, purpose**, and **reality** finally make sense. ***How Reality Really Works in Life*** introduces the Ajiake Three-Layer Universe Model™, a breakthrough cosmology that reframes human experience, personal alignment, and the hidden architecture of existence itself.

This is not another self-help book. It is a new intellectual universe — a system that reveals why life unfolds the way it does, and how you can consciously shape it.

At Frankfurt, global publishers, agents, and rights buyers have one rare opportunity: to secure access to a cosmology that will redefine how millions understand themselves and their world.
