Frankfurt Rights Kit

Overview

This Rights Kit presents the intellectual foundation, rights availability, and global publishing opportunity for the **How Reality Really Works** series by **Matthew Omaye Ajiake, PhD**. Three books are being offered at the Frankfurt Book Fair 2026:

- **How Reality Really Works in Life**
- **How Reality Really Works at Work**
- **How Reality Really Works in Leadership**

These works introduce the Ajiake Three-Layer Universe Model™, a cosmological and metaphysical framework that explains how reality forms, aligns, and expresses itself.

The Ajiake Three-Layer Universe Model™

The cosmology is built on **three universal layers**:

- **Identity** — What something *is* and why it exists.
- **Formation** — What shapes it.
- **Expression** — What becomes visible as the result.

These layers form the foundation of the AHU Cosmology, a hydrodynamic model of the universe that explains the architecture of existence and the mechanics behind human experience.

The Alignment Board Game™

The **Alignment Board Game™** ties the Three-Layer Universe Model together through an immersive, transformational gameplay experience. It presents **260 structured questions** that guide:

- Individual transformation
- Organizational transformation
- Corporate transformation

Each question is designed to reveal misalignment, strengthen identity, reshape formation, and refine expression. The game serves as a diagnostic and developmental tool that mirrors the AHU Cosmology in practical, experiential form.

Series Summary

The **How Reality Really Works** series is part of the coordinated **Ajiake Hydrodynamic Universe Cosmology**, authored exclusively by **Matthew Omaye Ajiake, PhD**, under the Beyond Institute for

Faith and Science Discovery. The series expands into eight integrated papers and books that collectively build the AHU Cosmology Intellectual Universe.

Rights Availability

Territories: Worldwide rights available.
